[Glyphosate CARC Final Draft EDITS 9.25.15.docx](#)

JR=

Okay this was a total pain, but here it is. I took the version from yesterday (that had all of the edits, corrections, etc. from Karlyn, Jessica, Lori, Anwar and Me)....accepted all the relevant track changes .and then today I added all of Charles and Ray's edits to the clean (cleaner) version. So all the track changes (deleted/added text) you see in this version are from Charles and Ray. I kept the comment bubble messages from all the reviewers in this document so you can see all their comments.

Ray has several comments that you will need to look at.

The Brain/glioma paragraph needs some work--- it's a bit confusing when trying to compare it to the table

I'm done for the day. I'll check my email this weekend in case you have any questions—of course you can always call me too.

Have a good weekend.

G
